Cocktail Bars
Fast Good Restaurants
Cevicherías
Catering

Viva Advance is perfect for all businesses that want to stand out for their design and innovation.

Its versatility and exceptional performance make it the ideal choice to meet the needs of any customer. From high-end restaurants to small cafés.

Juices, recipes, cocktails and much more

With Viva Advance you will have freshly squeezed citrus fruits for all your preparations.

Gain variety and surprise your current and future customers.

EVS ADVANCED

The purest juice

Smart technology for the perfect juice. The Efficient Vertical System is a unique and exclusive vertical juicing system from Zummo.

Based on manual juicing, the EVS® has been designed and developed by Zummo with one goal in mind: to achieve the perfect juice.

Two digital modes of use

SELECT

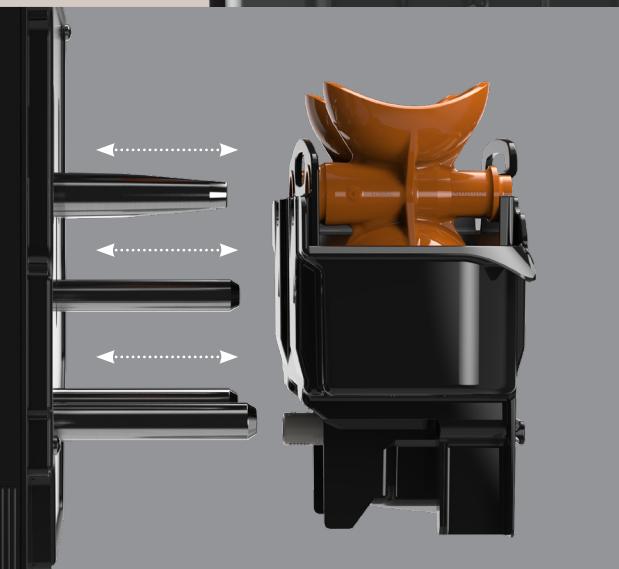

Select Mode

Define the number of fruits you want to squeeze per juice and Viva Advance will work automatically.

▷/||

Manual Mode

Control the juicing yourself using the play/pause button..

QES™

Easy cleaning and maintenance

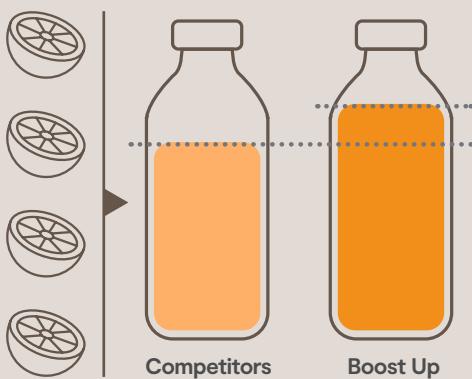

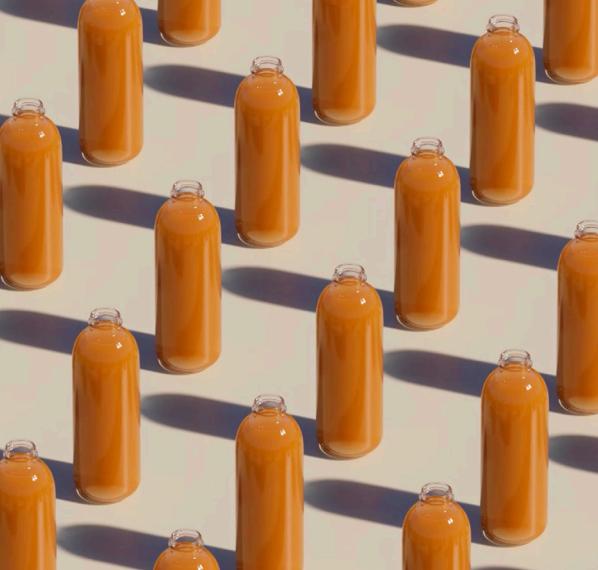

Save time with our Quick Exchange System. In a single movement you can disassemble the squeezing kit. We simplify processes so you can turn your time into profit.

New Boost Up kit

#1 IN YIELD AND COST SAVINGS

Business owners can expect a higher return on investment and increased customer satisfaction by investing in this innovative technology. It's time to squeeze more with less and enjoy a brighter, more profitable future for your business.

Juicing Technology

Boost Up improves juice extraction in Viva Advance by up to **4.5%** compared to its previous model, through a geometric design and an efficient shape, significantly enhancing performance and process efficiency.

Savings guaranteed

Boost Up not only enhances performance but also provides tangible savings by reducing fruit costs and minimizing waste.

Leaders in performance

With the best squeezing system, Efficient Vertical System (EVS®), you will guarantee the purest juice and, by the means of the combination with Boost Up, you will do it in the most efficient way.

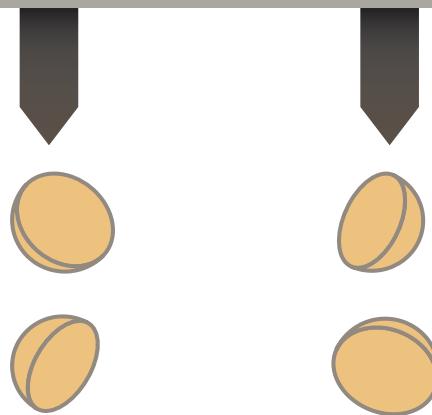

Countertop system

Continuous operation

Uninterrupted productivity thanks to the design of our containers. The waste will go directly to the waste area.

Automatic filter

An innovative rotating design guarantees maximum juice quality and purity.

Fruit dispenser

Up to 1.5 kg of fruit in the smallest space. The sloping design makes loading easy and the fruit visible.

Increases the visual appeal in your store and increases the demand for juice.

NEW

Zummo Cloud

Geolocation

Manage your machine fleet in a simple and efficient way.

Productivity metrics

Increase the profitability of your business thanks to the main consumption and performance indicators.

Status indicators

Always know how your juicer is doing to give the best service to your customers and interact with Viva from anywhere to change its status.

Preventive and predictive maintenance

Increase the life of your juicer and the quality of your juice thanks to constant monitoring of the most important parameters.

All in one

Feeder capacity

Small on the outside, giant on the inside. Despite its small design, the Viva has a large capacity in the feeder*. **11** oranges, **30** key limes, **20** limes or **11** lemons – save loading times!

Rediscover silence

Keep your premises quiet thanks to our new traction system based on independent motors. This system reduces the mechanical friction between parts and **keeps the noise level to a minimum**

Compact design

Viva Advance is perfect for premises with a small footprint. Thanks to its innovative and compact design, you will be able to offer a magnificent service **in a minimum of space**

The number of fruits is calculated based on standard sizes.
This will be determined by their caliber, which may vary throughout the year.

Types of fruit

With Viva Advance you can surprise your customers with endless recipes and mixed drinks. **Squeeze limes, mandarins, oranges, lemons and even key limes.** The choice is yours.

16 fruits per minute

The No.1 in its class
Save on serving time thanks to the speed of the Viva Advance. You can squeeze a glass of juice in less than 8 seconds.

More performance with BOOST UP

Boost Up not only improves performance, but also delivers tangible savings by reducing fruit costs and minimizing waste. Make the most of every last drop.

Filling height

With a filling height of up to **140 mm**, the Viva gives you plenty of room for carefree juicing.
